## **REMARKS**

Applicants thank Examiner Hawthorne and Supervisory Patent Examiner Bianco for the courtesy of the telephonic interview conducted on March 12, 2009.

### Amendments and new claims

Claims 1-8 have been amended, and Claims 11-43 have been added. No new matter has been added. Claim 9 has been cancelled. Support for the amended and new claims is found, for example, in at least the paragraphs on page 7, lines 17- 35; page 13, line 11 to page 15, lines 2; page 16, line 9 to page 18, line 3; page 30, lines 13-25; page 42, lines 19-23; and page 47, line 23 to page 48, line 4 of the specification as filed.

### Objections to the specification

With this amendment, an abstract has been provided on a separate sheet in accordance with 37 CFR 1.52(b)(4).

The Examiner has suggested guidelines for a preferred layout of the specification. Applicant has amended the specification accordingly. No new matter is believed to be added.

### Claim rejections under 35 U.S.C. § 112

The Examiner has rejected claims 1-5, 7, and 9 under 35 U.S.C. § 112, second paragraph as being indefinite for failing to particularly point out and distinctly claim the subject matter to which the Applicants regard as their invention. Applicants believe that the amendments made in this present response have corrected any such deficiencies. As such, withdrawal of these rejections is respectfully requested.

### Claim rejections under 35 U.S.C. § 102(e)

The Examiner has rejected claims 1-10 under 35 U.S.C. § 102(e) as being anticipated by Risk et al. (US 6,755,807). As discussed and agreed during the telephonic interview, Risk fails to disclose the particular limitations of claim 1. For instance, Risk does not disclose, *inter alia*, a cleansing means for selectively removing materials that are deleterious to wound healing from wound exudate, and a moving device for moving wound exudate from the wound and to the

cleansing means and for moving cleansed wound exudate from the cleansing means back to the wound. Applicant further submits that the cited reference does not teach or suggest the unique combination of features recited in the dependent claims. Consequently, Applicants respectfully request that the instant rejections be withdrawn.

New claims

Applicant has added new Claims 11-43. These claims are patentable over the cited reference for the reasons as discussed during the interview.

No Disclaimers or Disavowals

Although the present communication may include alterations to the application or claims, or characterizations of claim scope or referenced art, Applicant is not conceding in this application that previously pending claims are not patentable over the cited references. Rather, any alterations or characterizations are being made to facilitate expeditious prosecution of this application. Applicant reserves the right to pursue at a later date any previously pending or other broader or narrower claims that capture any subject matter supported by the present disclosure, including subject matter found to be specifically disclaimed herein or by any prior prosecution. Accordingly, reviewers of this or any parent, child or related prosecution history shall not reasonably infer that Applicant has made any disclaimers or disavowals of any subject matter supported by the present application.
